Sensory stimulation is not just for babies.
Older kids & adults often find comfort in fidgeting.
Our line of Fidgety Paper is soothing, washable & portable.
Safe for babies through adults.
These are great for medical centers, therapy & education systems.
Available in pocket-sized (4.25" x 4.25") & Large (12" x 12")
Gartel Patterns work well for Older Kids & Adults too!

When my children were young, I would hand them paper napkins to entertain them in restaurants. There was something appealing about the sensory stimulation in those napkins that kept them entertained.

Many napkins later, the idea for Baby Paper was born....Creating a sustainable version of the paper napkin, with no chance of paper cuts!
